FIRE THROUGHOUT BALKAN STATES

Turk's Entrance Into Fray Expected to be Signal for Greece, Italy, Bulgaria, Roumania, Persia and Egypt to Take Part in Struggle to the Bitter End.

PERSISTENT REPORTS AFLOAT THAT
AUSTRIA HUNGARY WANTS TO QUIT

United States Views With Alarm New Turn in War—Japan Expected to Take Hand—Allied Nations Had Warned Turk of Terrible Consequence to be Meted Out Should Ottomans Enter Fray—Struggle in Flanders Continues—England is Alarmed at German Spy System Which Everywhere Abounds.

By Associated Press.

London, October 30.—The battle array, as a result of the entry of the Ottoman empire into the international struggle, now stretches in an almost unbroken diagonal line across Europe and, as Turkey's adherence to the Teutonic side of the quarrel can hardly be the last factor in the war which gradually is engulfing the eastern hemisphere, it may reach from the Atlantic to the Indian ocean. Greece, Roumania and Bulgaria are practically certain to be drawn into the conflict which already is engaging ten nations, and the ultimate inclusion of Italy and Persia, with perhaps the Asiatic lands to be eastward of the latter country, is today regarded in London as scarcely less probable.

Hot on the heels of the Turkish offensive movement against Russian ports on the Black Sea has followed what amounts to be a declaration of war by Emperor Nicholas in the form of instructions to his ambassador and his consuls to quit Turkey. The appearance of the allied fleet off the Dardanelles will be a natural sequence.

The intervention of the ports, since its persistent disregard of the warnings of Great Britain, France and Russia, has been anticipated and is said to have been thoroughly prepared for, it is accepted in London as another profession of the German need to endeavor to draw off Russian forces from Poland and Galicia. The Russians have reserves which they claim are capable of attending to the Turks without depleting armies now in the field. These latter, apparently, are making steady progress toward the entrenched positions on the river Warthe in Russian Poland. The Russian reoccupation of Czernowitz, in Bukovina, is considered important. Rumors are again current in London today that Hungary would welcome a chance to quit. It is also suggested that Serbia soon may be compelled to retire within her own border and assume a purely defensive role. The battle arena stretching between La Basse and Neuport has been virtually screened off again, so far as independent news is concerned, and the official communications on the progress of the fighting in Flanders is so contradictory that little can be gleaned from them.

Washington, October 30.—Turkey's entrance into the field of war-like operations, though not unexpected, has caused a sensation in official circles here because of the probable far reaching effect of this action. Probably no one factor in the great European struggle is regarded so uncertain in quality as the Turkish empire.

The probability that, by yesterday's act of war against Russia, the Balkan states may be drawn into the vortex of the great conflict, thereby cutting off a vast quantity of food supplies, which it had been expected would go to the maintenance of the northern European countries during the war, has brought home to

the officials here a realization of the very close and intense interest of the United States into the latest development.

The result of Turkey's action, as viewed by the military experts here, will be to greatly embarrass Russia at the outset. Diplomatic representatives in Washington of the allied powers have believed from the outset that as soon as Turkey had fully prepared her army and navy for the conflict she would cast the die for war.

Great Britain, Russia and France, have, through their ambassadors, made it plain to Turkey, it is declared, what the consequences might be. The Anglo-French fleet, which has been comparatively unoccupied in the Mediterranean, would bombard the ports of Asia Minor; Greece would probably join the allies against Turkey and the Balkan states would be drawn into the general imbroglio with the prospect that Italy might be found fighting Turkey as well.

That the conflict might extend to Egypt, Persia or Arabia, with the possibility of the Japanese fleet supporting operations of the allies, has been discussed here in quarters friendly to the allies. When reports were current of unrest among Muslims in India it was made clear that Japan would offer her services to Great Britain, feeling that the spirit of the Anglo-Japanese alliance compelled her to support her ally in maintaining the special interests of England in Eastern Asia.

The Greek navy, with its two American built ships, formerly the Idaho and Mississippi, must be seriously considered. They are superior to the Turk cruiser in armor and armament.

The general opinion here is that at least in the beginning and for some time thereafter, Turkey would be greatly circumscribed in her activity. One of the uncertain elements in the political side of the problem is the effect on the great Moslem population of India. It is pointed out, too, that there is probability that Egypt would be drawn in through her political and religious affiliations with Turkey.

Constantinople, via London, October 30.—In anticipation of the possible invasion of Egyptian territory, British Ambassador Mallet has plainly informed the grand vizier that if the Turks cross the frontier it would mean war with the entente powers. It is understood that the embassies of the allied powers, fearing a rupture, have already made the necessary arguments for the departure of the diplomatic representatives.

London, October 30.—The correspondent of the Daily Mail, in France, says:

"The German naval gunners are doing better than the army gunners, having hit the torpedo boat destroyer, Falcon, and killed her commander and four men. The German fire, however, is quite insignificant in ef-

fect as compared with the British naval fire.

The German spy system is amazingly efficient. It is puzzling the British officers how they get their news.

BURBA SAYS
NO FOUNDATION

By Associated Press.

Columbus, O., October 30.—George E. Burba, secretary to Governor Cox, told the Ohio State University club an Alumni organization, at a luncheon today that there is no foundation for the persistent report that the Governor intends to displace President W. O. Thompson of the University if the Governor is re-elected.

GRAVES INSTRUCTS
ELECTION BOARD

Columbus, Oct. 30.—In conformity to his stand on other questions affecting elections, Secretary of State Charles H. Graves will insist upon rigid enforcement of the students' voting act. He has sent word to the board of elections in every county in which there are colleges to this effect. The law merely forbids students from voting in counties where they reside temporarily while in attendance upon an institution of learning. It allows them, however, to cast their ballot in the city, village or township from which they came.

FOR SERVICE
IN MEXICO

El Paso, Tex., Oct. 30.—A filibustering campaign far more extensive than any previously attempted has been discovered by border officials, who have unearthed a movement to set several thousand men to fighting in Chihuahua in the course of a few weeks. It is stated that officials of the old Quevedo band have been actively recruiting men in El Paso for service in the north. For about a week past small bands of recruits have been leaving the city for points near Columbus, N. M., where they have crossed and joined the Mexican forces. An arrest which, it is claimed, is the result of the activity, was made by federal authorities when Captain Bernardo Bani was taken into custody. He was a captain under Federal General Antonio Rojas and was one of the thousands interned at Fort Wingate. He was arrested on the charge of recruiting men in this country.

LATEST GERMAN
CASUALTY LIST

Berlin, Oct. 30.—The number of casualties among the German troops recorded by the first 50 lists totaled 231,218, divided as follows: Killed, 36,531; wounded, 159,165; missing, 35,532. The dead include 2,835 officers. This shows that the German officers are leading their troops with great bravery.

WARSHIPS PATROL
COAST OF FRANCE

London, Oct. 30.—Additional warships have been sent to the channel ports along the northwest coast of France. They will furnish support to the allies in the new attack which is apparently being planned by the Germans on these ports. Incidentally they will be in readiness for either an under water or an aerial raid against English ports. No doubt is felt here that the Germans have massed submarines and light torpedo craft in the canal between Bruges and Zebrugga. They are also reported moving their aerial navy, or at least a part of it, into Belgium.

EUROPE'S EYES ARE ON WILSON

Springfield, Mass., October 29.—Secretary of War Garrison in a speech delivered here last night directed the attention of the American people to the fact that the eyes of the world are upon President Wilson as the international character who will be largely responsible for the solution of the European problems, and the bringing of peace abroad.

The Secretary also read the following paragraphs from Hon. Richard Olney, former secretary of state, written to Col. George Harvey:

"To weaken President Wilson's prestige at this crisis, to make it appear that he and his administration are not trusted and supported by the American people, would be a calamity."

"At this juncture and until dis-

Much interest centers on the appearance in this city tomorrow evening of Hon. Richard Pearson Hobson, hero of the Spanish-American war, and one of the most prominent figures in public life at the present time.

Mr. Hobson will deliver two addresses—the first at a general mass meeting at Grace M. E. church at 7 o'clock, with Supt. Wm. McClain presiding and the Girls' Glee club furnishing the music, and the second at Memorial hall. The second is to be a voters meeting, and will begin at eight o'clock, Hon. C. A. Reid presiding. The Boys' Glee club will furnish the music.

Both addresses are free, and are in the interests of State-wide prohibition.

21,976 FORDS SOLD IN SEPT.

The Ford Motor Company announces that in the month of September there were sold and delivered 21,976 Ford cars. This was a gain of 11,479 cars over September, 1913. This is significant, not only because it shows that the Ford production is rapidly being increased to meet the stupendous influx of orders, but also because it demonstrates that the Ford Motor Company is maintaining the 300,000 car schedule necessary to give Ford purchasers between August 1st, 1914, and August 1st, 1915, a share of Ford profits.

NEW MINISTER IN GREENFIELD

Special to Herald. Greenfield, O., October 30.—The Rev. W. W. Warjon of Richwood, Ohio has been called to the pastorate of the First Baptist church here. He is expected to arrive tomorrow to assume charge.

Rev. Warjon is a native of Wales, having come to this country some sixteen years ago for the benefit of his health. So favorably impressed was he with our land, that he decided to locate permanently. The past summer, he with his family visited his old home, and his wife and children have not as yet returned. Owing both to the uncertainties and dangers of travel, and anxiety for a number of relatives now engaged in the war, they have decided to spend the winter there.

Rev. Warjon is a campaigner of great ability, and is to assist in the dry campaign the few days remaining before the election.

EVENING PRAYER OF A PEOPLE.

Lord, from this storm-awakened isle,
 At this dark hour on land and sea,
 'Twixt bugle call and Sabbath bell
 Go up our prayers to Thee.

For the long years of sanctuary
 We tender thanks, O Lord,
 For peaceful fields and sacred hearths
 And the unused sword.

Thine be the praise. And now when
 quake
 The world, and trials come,
 O God, preserve inviolate
 Our ancient island home.

O had we died untried, unproved,
 And missed this hour of stress—
 Praise be to God for this last gift,
 The joy of steadfastness.

Where'er our people be tonight,
 Our husbands or our sons,
 Tossed on the thunder-bolted deep,
 Or flung by the guns;

Who tread the mire of foreign lands,
 Or guard our native coasts,
 Be Thou their shield and comforter,
 We pray Thee, God of Hosts,

The Uncanny Night

Tomorrow night the ghosts walk and the great autumn festival of Halloween will be celebrated, in every city, town and hamlet, all over the land. Coming on Saturday night just suits the greatest of all Halloween revelers, children and young people, for they can frolic to their hearts' content, with no hobgoblin of lessons for the next day, and it is a safe prophecy to say that every able-bodied girl and boy in Washington will take some part in celebrating the "witches' night."

The mystery and spell of enchantment which surrounds Halloween, makes it the most fascinating night of the year to young people, and the "spookier" and more ghoulish it can be made the more they love it. Fun, laughter, uncanny pranks, tests of fortunes, mardi gras revels—the more the merrier!

But deliver us from the vicious mischief, which for several years caused Halloween night, with its forerunner, the very unpoetical "cabbage night", to be dreaded, as sure to bring trouble to some one.

Last year in this city set an example for the right celebration of All Hallow's eve which we hope will be followed tomorrow night.

For several years Halloween was abused by unscrupulous deviltry and citizens were justly indignant to find, the following morning, stone walls torn down, gates taken from their hinges and carried so far away they were never found; fences broken, porch furniture destroyed, windows soaped and many other acts of property destruction.

People rose up in wrath. Tolerant with the good time spirit, they resented its abuse, entailing both expense and much inconvenience.

So last year the law was firmly laid down and an extra police force with auto service, detailed.

Whether due to that fact, to the efforts of the Y. M. C. A. management in providing true Halloween diversion, or to other influences, there were very few complaints the next day.

This year Mayor Coffey has announced that, having all sympathy with innocent fun, he will not permit destruction or removal of property, soaping of windows or unreasonable acts, and an extra force of police will guard property and keep a sharp outlook for offenders.

It may go pretty hard with the vicious Halloween trespasser.

Also the Y. M. C. A. is arranging for a Halloween feast that will rival a mardi gras fete. All the wierd, fantastic fairies, sprites, elves and demons, as well as celebrities of history, the ghastly ghouls and silent ghosts of war, the shades of Mother Goose notables will be there and the big parade offers lots more fun than an unkind, stealthy prank.

Consequently people are looking forward to a Halloween free from former annoyance and enlivened by picturesque features.

It is hard for today's practical world to conjure up boghoblins and witches, and it takes all the spell of mystery to evoke that nice creepy feeling which everybody likes to have on the witches' night.

Halloween is clearly a relic of pagan times and harks back to the days of ancient Celts and the Druid priests. When Christianity took the place of heathen religion, the ancient harvest festival of the Celts became all Halloween.

It has always been associated in the imagination with the prevalence of supernatural influence and the superstitious belief that supernatural beings are abroad and exercise unearthly power over mortals. A popular belief ascribed to children born on Halloween the faculty of perceiving and holding converse with supernatural beings.

Burns in his poem, "Halloween" gives humorous and richly imaginative presentment of usual ceremonies as practiced in Scottish rural districts in his day.

In the north of England, Halloween was known as "Nut Crack Night", and still, after centuries have passed, nuts are cracked and named and roasted in the fire-place to prophecy in their bursting those fated to love and marry.

The typical time-worn Halloween rites and games of ancient origin, refuse to be relegated to the superstitious past and are today a welcomed part of the spirit of the night.

HUNDREDS OF CHILDREN TAKE PART IN PARADE

The sight of more than a thousand school children, ranging in age and size from the tots in the primary grades to the upper classmen of the High school, was most inspiring as they paraded through the streets of the city Friday afternoon, carrying banners and pennants in appeal to the voters of the city for the dry interests whose cause will be at stake in the election next Tuesday.

Little kiddies, barely able to toddle along, but happy to be a part of the big procession, older children, representing all classes and conditions of Washington society, and the more mature and wiser young ladies and young gentlemen of the high school, some of whom will soon be eligible to take their part in the influencing of public government, all mingled in the long parade which wound its way through the business section of Washington, shortly after 2 o'clock, pausing now and then to execute patriotic drills or to sing the songs of the cause they represent.

The parade comprised children from all the schools of the city and

was the second given by them, the first taking place two weeks ago. Many persons were on the streets to witness the demonstration, and applause along the line testified appreciation of the children's efforts.

The feature drills, marches and songs, as put on by the different grades, in their vari-colored caps and uniforms, were important factors in making the parade the spectacular success it proved.

The tiny tots of the primary made a tremendous hit in their song "Victory", the children forming the letters as they sang.

One of the most difficult and most taking drills of the march was put on by the children of the rural schools, the intricate figures showing splendidly.

The Washington band led the parade and the rural schools brought up the rear.

Supt. McClain and Mrs. Frank E. Haines had the management of the parade and were splendidly assisted in the work of drills and songs by the entire corps of city teachers.

LINE OF MARCH TO BE FOLLOWED BY MASQUERADERS

All plans have been perfected and are ready now for execution in connection with the big Y. M. C. A. Halloween parade and open-air entertainment Saturday evening and judging from the reports received it will be one of the most elaborate festival celebrations ever held in Washington.

Forming on South Main street near the Pennsylvania station at 7:00 o'clock, the weird procession of Halloween revelers will move north to

East street, promptly at 7:30 o'clock, turning east and proceeding to Washington avenue; thence west to Court street and west to Hinde, turning North into Hinde, moving thence to Temple, east on Temple to North; south on North to Court; west on Court to Main and south on Main to the Hagler field where the big open-air carnival will follow.

It is the purpose of the committee to dot the field with huge bonfires and these to be heightened in effect by the flare of red fire. The setting for the strange frolic, thus perfected, the merriment will proceed with games—including a tug of war—and various stunts. Another feature to be added will be a greased pole climbing contest.

Everyone is cordially invited to join in the big parade and bonfire gambol.

Prizes will be offered for the best costume. These prizes are donated by Messrs. Leo Katz & Co., Craig Bros. and Cockerill's grocery, and the judges, Mayor Coffey, Walter Ellis, D. S. Craig, Leo Katz and W. B. Rogers, will present the prizes to the best costumed persons.

The Daughters of the American Revolution will hold their meeting Monday afternoon at the home of Mrs. James Crawford. A very attractive program is being prepared and it is hoped all members will avail themselves of its entertainment.

AN ELECTION DAY SONG

Men of Ohio, hear this plea;
Let the watch-word, liberty,
Rule your vote November third—
Vote woman suffrage in.

This which woman long has sought
Is that for which your father's
fought;
How then can evil e'er be wrought—
By voting suffrage in?

In life's battles by your side,
She's your comrade true and tried;
Let this then be not denied—
Vote woman suffrage in!

Do not feel the least alarm
That 'twill do a jot of harm,
Or that girls will cease to charm—
Vote woman suffrage in!

Think, in sickness she has cared
For you, and oft privation shared,
All your griefs and troubles shared—
A help-mate ever been.

Your child in travail she has borne,
And with its care grown pale and
worn;
Let freedom's pearl her life adorn—
Vote woman suffrage in!

Beneath our country's skies so
bright,
Our flag so beautiful to the sight,
Let each one have an equal right—
Vote woman suffrage in.

To it we know you're loyal, true;
For it we know you'd dare and do;
To what it stands for then be true—
Vote woman suffrage in!

Vote for sister, sweetheart, wife;
Vote for who who gave you life;
The fruits of earthly toil and strife—
Let each unhampered win!

MAYOR ORDERS STREET CLEARED

Friday afternoon Mayor Coffey issued instructions to the police to keep Court street clear of vehicles, and particularly of buggies, Saturday night, so that the street may not be obstructed when the big Halloween parade passes through the street.

The parade will pass through the street twice, and owing to the noise and confusion which usually accompanies such a celebration, there is danger of horses becoming frightened and breaking free from the hitch-racks.

The police will keep Court street open from Main to North while the revelers are on the march.

BRITTENHAM STILL AT DEATH'S DOOR

Clarence Brittenham is still in a semi-conscious condition, with no changes expected until about Sunday, when a change for the better or worse is anticipated by the physicians.

He is able to talk in a rational manner during short periods, but quickly relapses into semi-consciousness.

The man who was arrested for hurling the stone which crushed Brittenham's skull—Alonzo Sharpe, is still in jail, and no formal charge has been placed against him.

DOES SERVICE MEAN ANYTHING TO YOU?

Think it over. Is it better to trade at a drug store where every courteous attention is given to send you away completely satisfied? Or that you trade in some store of indifferent methods, where the only object is to get your money?

Satisfactory service adds value to the goods you buy. Our service is satisfactory. We make it so. For many years we have been following this principle till it has built up our present enormous business. The satisfaction of our customers, therefore, has proven our greatest asset. We want your trade, and in return we promise to give you the best of drug store goods at the lowest prices, and in addition, to give you service that will insure your friendliness and continued patronage.

'CAN SEE AS GOOD AS DADDY'

Bring your children to us if their eyes trouble them. A child's disposition may be ruined and entire future life darkened through existing defects in eyesight. Children are often called dull and stupid by teachers and parents through no fault of the children. Better be cautious by having the child's eyes examined.

Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

SUES THE B. & O. FOR \$3,000 DAMAGES

Charles Osborn, of near Frankfort, the man whom B. & O. detective R. A. Kennedy recently took in charge while on a train between Chillicothe and Greenfield, and over which a great deal of censure was heaped upon the detective until he was freed from all blame by his superior officer after a careful investigation had been made, has sued the B. & O. S. W. railroad company for \$3,000 damages, claiming that the conductor hit him over the head, beat him and put him off the train.

Coke L. Doster, of Greenfield, and E. A. Tinker, of Chillicothe, represent Osborn in the suit.

Osborn is said to have caused the railroad officials trouble before.

AT THE EMPIRE.

Accounts from other cities herald the new Oscar and Adolph production, "Oscar and Adolph" as the best of all the cartoon musical entertainments. A different idea has been followed and the latest Broadway reviews have been taken as models for this new musical comedy. Also the producer had in mind a return to the old Rodger Brothers' style of entertainment—the antics of a pair of adventurous dialect demons framed in a background of pretty girls who can sing and dance.

Oscar and Adolph are surrounded by a "gorgeous garden of glorious girls" a feature of which is the Eight Dancing Rosebuds. Novel singing and dancing numbers have been staged and the best talent from the

What The Home Rule Amendment Means

The sole purposes of the Home Rule Amendment are to make the municipal corporation and the township the largest units in local option elections, retaining the present municipal, town and residence district local option laws; to repeal the Rose County Option Law; and to prevent State-Wide Prohibition except upon a vote of the people. The Amendment has nothing whatever to do with the sales to minors law, the Sunday law, or any other regulatory law.

That no other meaning can be forced into this Amendment is the unanimous conclusion, expressed in the most positive terms by the following eminent lawyers:

To the voters of Fayette County:

My campaign has been conducted thus far, and will be finished, without the assumption of a single obligation beyond that of a set determination to use my best efforts to give a faithful and competent administration of the office of Sheriff. On my record, which is well known to the people of this county, I submit my claim to the possession of the proper qualifications, and ask for your consideration.

ITALIANS DISTURBED

Rome, Oct. 30.—The report that Greece has landed 12,000 soldiers at Sanfi Quaranta, thus taking possession of the southern part of Albania, which gives them entire control of the Corfu channel, is causing a profound impression in Rome. As this step on the part of Greece was strongly opposed by the London conference, it is generally believed in Italian political circles that Greece will not be supported by Great Britain and France.
